✓ Still Waiting for NYC Vital Records?

— According to an article in the 11 Jan 1995 *New York Times* (Metro section), when auditors from the City Comptroller's office went to the Department of Health's Division of Vital Records last October, they found 12,545 mailed requests for birth or death records, along with \$272,000 in attached checks, sitting untended in cardboard boxes. Fewer than half had been opened, and those that had contained uncashed checks to the city that were months old. City Comptroller Alan G. Hevesi called the unanswered requests "a new low in administrative negligence."

Health Department officials attributed the backlog, which they say has now been eliminated, to chronic staff shortages and budget cuts. In 1987, according to the Health Department, the Vital Records Division had been cut from 180 employees to 105, and that currently 17 jobs were vacant. Officials claimed that the backlog had been eliminated in six weeks by having employees work overtime at a cost of \$12,000.

Dictionary of Rockland County Place Names

Compiled by Pat Wardell

This started as a personal project for my own information and it is certainly far from complete. I hope that even in its incomplete form it might be helpful to others, and at least a start for a more complete listing. I hope that members will add to (and correct, if necessary) the information given in this alphabetized series. References are cited. If you find place names in deeds, records, and other documents, I would like to know so that I can add time frames, geographic placements and further information to these usages. —Pat Wardell, 78 Edgewood Rd., Allendale, NJ 07401.

(continued from December 1994 issue)

Smith's Clove

A narrow pass in the vicinity of what is today Monroe, Orange County, N.Y. It was apparently named for one of the area's original patentees, William Smith, who had migrated from Long Island, N.Y. It later became associated with Claudius Smith, an outlaw of the Revolutionary War era, who was called "the cowboy of the Ramapos."

ANCESTOR TABLES

In order to increase interaction between members, the Society will begin to publish Ancestor Tables, which are a brief listing of the ancestry of members. These tables will be printed in expanded editions, issued periodically, of the newsletter. It is hoped that members will find distant cousins who share common lines, which will further the research efforts of both. The decision to publish ancestor lists was spurred by their publication by the Orange County Genealogical Society newsletter, and by the chance finding by Bob Protzmann, upon seeing Pedigree Charts submitted to our Society by member Natalie Mather, that they were cousins. Those two ancestor tables are the first to be published (see below, in this issue).

Other members are encouraged to submit their Ancestor Tables to Bob Protzmann, 4 Ethel Drive, New City, NY 10956, who will assist the editor in their preparation for publication.

The numbering system used is as follows: The submitter is number 1. The father's number is twice the number of the son or daughter; i.e. double that of the child. Each wife's number is one higher than that of her husband. Even numbers are always male ancestors; odd numbers always female ancestors (except for #1 which is the number assigned to the subject of the table). If all ancestors were known, then all numbers would be used; where ancestors

are not known, those numbers are omitted.

If you have brief comments, corrections, or additions to a published ancestor table, or wish to note additional sources, published articles, etc., send them (referencing the Ancestor Table name, date of issue in which published, and the individual person's number in that Ancestor Table) to Bob Protzmann at the address above. We will publish these in a continuing dialogue, in the Ancestor Table Forum.
