NOTICES

The Association of Blauvelt Descendants will host an Open House on Saturday, May 22, 1998 at the Hiram Blauvelt Wildlife Art Museum in Oradell, NJ, from 1:00 PM to 4:00 PM. All Blauvelt descendants and their families, ABD Members as well as non members, are cordially invited to attend a very enjoyable afternoon. This is a great way to meet Blauvelt "Newcomers" as well as rekindle old friendships and acquaintances in a very informal setting. Bring the whole family to enjoy the wildlife displays and art exhibits, and catch up on the latest family news and activities.

The Museum was originally the carriage house on the Hiram B. D. Blauvelt estate, called "Bluefields". It contains the Hiram Blauvelt collection of birds, animals and reptiles from around the world. The museum is the first art museum in America to feature solely a collection of Wildlife and Sporting Art. The current showing is The Society of Animal Artists 37th Members Annual Exhibition, "Art and the Animal"

In feudal times, a peasant was permitted to collect wood from his masters estate as long as he used only a farming hook or shepards crook to gather suitable branches. This was a tiresome job, but it did eventually secure a supply of kindling for his fire. Hence the well known expression, "by hook or by crook".

Her mother was Elmira Howlett, b. 8 Sep. 1841 in New City, d. 30 Nov. 1920 on S. Franklin St., S. Nyack, buried in Oak Hill Cem. Her father was Hiram Howlett. The parents of Josephus Hartwick were Samuel Hartwick & Sarah Clark.

I have the following for the 1905 census, 6th. Election Dist., Clarkstown, West Main Street.

William Goldback	24	US	Baker
Ella (wife)	22	US	
Elmira Hartwick			
(mother in law)	59	US	
Myron Goldback	25	US	Shoe Factory
George	19	US	Mineral Water
Harry	17	US	Shoe Factory
Helen M.	5	US	

I have no other record for William. He died or was divorced by Nov. 1906 when Ella married Louis Phillips. I have not been able to find a marriage record in NY State for Ella and William in 1897/1901, nor a death record for William.

This branch of the Hartwick family goes back at least into the 1790's in Rockland County.

ROCKLAND COUNTY ARCHIVES

Program Presented at the February 24, 1998 Meeting of the GSRC by the Rockland County Archivist, Mr. Peter Scheibner.

Peter Scheibner spoke about the county archives and the new building for housing them, which is nearing completion in Pomona. The county records are now stored in about forty different locations which makes some of them difficult to access. In addition, they are not stored under optimal conditions. With a lot of support from the State and a very positive county executive, Scott Vanderhoef, and county clerk, Ed Gorman, plans were made to erect a new building to house the county archives.

The new state of the art building will be about 15,800 square feet, a little smaller than originally planned due to expense, and was designed by local architect Jan Degenshein. It will probably be called Building S, directly behind Robert Yeagers old house, in the Pomona Health Complex. There should be parking for about 16 cars. There will be a separate search area, and most likely volunteers will be needed to help in this location. The current staffing is only three people, including himself, and their main business is storing and archiving records. The largest area is the records storage area, which will be filled with shelving. Everything coming in will be bar coded. It is anticipated that the building will be ready about June 1st, 1998.

Mr. Scheibner asked if there were any members of GSRC who would be willing to volunteer to help out at the new archives building. Help will be needed in sorting and cataloguing records. Six members present agreed to give a half day each week to help out. If you have some spare time to contribute, please call. It would be good for members to get involved, both as individuals and as GSRC representatives. Perhaps this will eventually lead to a permanent, accessible location for our own research library. Members can give as little or as much time as they wish. For more information, call: GSRC Newsletter Editor, (914) 735-7063

Although the building is smaller than originally planned, it will be amenable to expansion. There will be a reading room with tables and chairs for looking at census records, etc. and a conference area also. An archives storage room is in the plans for historical material--old books, maps, etc. There will be archival box storage rather than file storage. He anticipates that the hours will be 9 am to 5 pm. Mr Scheibner noted that land deeds will remain at the county clerks office.

The census books will be in the reading room. All other records will be in the archives or storage center. Most of the records will be on microfilm, using the best archival microfilm available, and will be computer indexed. The microfilm is supposed to last over 500 years. He noted that computer media are not archival, lasting perhaps no longer than 3 years, and must be continually backed up. (see attached list of material available to the public)

Mr. Scheibner was very concerned that Rockland County does not have the complete Budke collection. The original documents are all in the New York Public Library, which greatly limits access by Rockland County residents. He has made some overtures to the New York Library for microfilming these records, without success, and asked if our society would have any suggestions in this regard. He noted that we should pool our efforts to microfilm the entire collection so it is available here in Rockland County.

ANCESTOR TABLES

In order to increase interaction between members, the Society will continue to publish Ancestor Tables, which are a brief listing of the ancestry of members. These tables will be printed in expanded versions of the newsletter, and the Board will evaluate member response. While member response remains positive, publication will continue. It is hoped that members will find distant cousins who share common lines, which will further the research efforts of all.

All members are encouraged to submit their Ancestor Tables to Bob Protzmann, 4 Ethel Dr, New City, NY 10956, who will assist the editor in their preparation for publication

PLEASE NOTE: the Genealogical Society of Rockland County and its editor are not responsible for the accuracy of the Ancestor Tables. Please do not submit names that are not well documented. If there is any uncertainty, then the listing should be preceded by a "?"

Anyone interested in a particular ancestor or ancestral line should contact the submitter for details and documentation.

The numbering system used is as follows. The submitter is number 1. The fathers number is twice the number of the child, i.e. double that of the child. Each wife's number is one more than that of her husband. Even numbers are always male, odd numbers always female (except for #1, which is always the number assigned to the subject of the table) If all ancestors were known, then all numbers would be used; where ancestors are not known, those numbers are omitted.

If you have brief comments, corrections or additions to a published ancestor table, or wish to note additional sources, published articles, etc., send them (referencing the Ancestors Table name, date of issue in which published, and the individual persons number in that ancestor table to Bob Protzmann at the address above. We will publish these comments and corrections, etc. in a continuing dialogue in the Ancestor Table Forum.

Murphys Laws As Applied To Genealogy

1. You never asked your father about his family when he was alive because you weren't interested in genealogy then.
2. The relative who had all the family photographs gave them to her daughter, who has no interest in genealogy and no inclination to share.
3. Ink fades and paper deteriorates at a rate inversely proportional to the value of the data recorded.
4. When at last, after much hard work you have solved the mystery you have been working on for two years, your aunt says "I could have told you that."
5. John, son of Thomas, the immigrant whom your relatives claim is the family progenitor, died on board ship at age 10.
6. The public ceremony in which your distinguished ancestor participated (at which the platform collapsed under him) turned out to be hanging.
