Tribute to Abraham Lincoln

*200th Birthday of the Great Emancipator and
16th President of the United States.
12 February 1809-2009*

"The Gift of Lincoln"

The President who won the Civil War, preserved the nation, and ended slavery.

"A Man for the Ages"

Perhaps his greatest gift to this nation was to rededicate it to its founding principles "that all men are created equal," enshrined in the Declaration of Independence.

Highlights of his life include the "Gettysburg Address" and his untimely death on 01 April 1865 at Ford's Theater.

Excerpt from Wall Street Journal,
12 February 1996-97.
[GSRC Member: Curtis Shuart]

Sons of the American Revolution Program

Kingston in May Alert

History buffs, library patrons and Sons of the American Revolution are joined together for a field trip to Kingston, NY, home to the state's first capital. We will tour the north end of the city in the Historical Stockade District. The Senate House site will be featured as a tour along with a walking tour of the district. We will travel by car to the southern end in historic Roundout Creek. There we will sit by the water and enjoy lunch. The afternoon will be spent visiting the Hudson River Maritime Museum. Car pooling is the mode of transportation and all expenses are on your own. Restaurant choices vary from inexpensive to higher end, your call. When is this happening? This is the only part missing. We have yet to set up a date. It will be on a Wednesday in May before Memorial Day. Check the web calendar for forthcoming information

New York State Archives

For the period of a year or more, GSRC members: Joan Brooks, Marie Koestler and Maryann Smith made regular trips to the NYS Archives in Albany to copy the indexes of the BMDs held there. Some help was also provided by Joe Montelione and Bob Protzman. We were moving right along when winter came and weather too frequently interfered and then we were really stymied by the gasoline crisis. Hence, were at least temporarily, put out of business. We had been searching the microfiche specifically for the residents of Rockland County towns and villages. The information provided a certificate number or license or registration number along with name, date of event, and township. In some instances this data is sufficient for our needs, but when the full document is required, this index information completed on the State's form, will save you both time and money to procure the document. Your request will not need to go on the bottom of a pile which may reach the top a year or more later and no one will have to go through the records searching for the name(s). You are just providing information that you obtained from the Albany NYS Archives.

ANCESTOR TABLES

In order to increase interaction between members, the society will continue to publish Ancestor Tables submissions, which are brief listings of the ancestry of members. It is hoped that members will find distant cousins who share common lines, which will further the research efforts of us all. All members are encouraged to submit their Ancestor Tables to the Ancestor Table Editor, Bob Protzmann, 4 Ethel Drive, New City, NY 10956-6328, or by E-mail, in WORD, or .txt format to Protzy41@optonline.net.

PLEASE NOTE: - The accuracy of information presented in Ancestor Tables is the responsibility of the submitters, and not the responsibility of the Genealogical Society of Rockland County. Please do not submit information that is not documented. If there is any uncertainty, the information should be marked with a "?." Anyone who desires further information, documentation, or has questions or additional information, should contact the submitter at his address given at the head of the Table.

Additional data should be sent to the submitter, and copied to the Ancestor Table Editor, at the address noted above. We will publish comments and corrections, etc., in the Ancestor Table Forum.

The numbering system used is as follows: The first person on the list is number 1. Each ancestor's father is Twice that person's number. Each wife is one number higher than her husband. If all

ancestor's were known, then all numbers would be used. When an ancestor is unknown, the number is skipped. The number in parentheses after each generation is the number of ancestors in that generation. A ♦ indicates the last known ancestor in that line. A * indicates that the individual occurs more than once in the ancestry, ** indicates the second listing for the individual.

ANCESTOR TABLE FORM

We have received additional information from Jeff Hammond, (H-37) 9227 54th Court East, Parrish, FL 34219, whose Ancestor Table was presented in the December 2008 issue of the NEWSLETTER. It is our custom, in the interest of privacy, and in order to reduce the chance of identity theft, NOT to publish complete birthdates for living individuals. Jeff's response has been edited with that concern in mind. (Editor).

Thank you very much for publishing my daughter's ancestry. May I provide a few corrections as in red below (changed to italics/underlined - Editor)

As published by line:

Please change spelling of first name and b. date as follows:

1. Callan J. HAMMOND, b. 1996, Maple Grove, MN.

PARENTS (2):

2. Jeffrey P. HAMMOND, b. 1951, Chicago, IL

Please add:

3. Teri-ellen HUMMEL, b. 1952, Chicago, IL ♦

- GRANDPARENTS (4) *Please correct place of birth and death.*

4. Howard A. HAMMOND, b. Dec 29, 1903, Ramapo, NY, d. Oct 16, 1966 South Holland, IL

5. Michaelene MIKUS, b. Apr 27, 1918, Chicago, IL, d. Nov. 03, 1983, South Holland, IL ♦

GERMAN GENEALOGY

Since we seem to have members doing German Research, this is a reminder that we all need to keep our data safe. and our "New Year's Resolution" should be to make all those inquiries that are gathering dust on our desks.

Two Missing at German Archive Building Posted: 06:45 AM ET

(CNN) Two people remained missing in the rubble of an archive building that collapsed in Cologne's city center, a spokesman for the city's fire department said Wednesday.

The two missing men were in a residential building next to the archive building when it collapsed Tuesday afternoon. The building they were in was heavily damaged by a second building that collapsed, spokesman Stefan Besslich said.

One person in that adjacent building was injured, he said. Authorities haven't yet determined what brought down the structure, which housed the city's historical archive, with records going back 1,000 years, Besslich said.

With rain forecast for Wednesday afternoon, Besslich said authorities were working to cover the building so the records are kept dry. They are also starting the task of removing the records to keep them safe, he said.

It's still too early to speculate on the cause, Besslich said. The search for people is an absolute priority (and) the covering of the building is an absolute priority.

"DNA and Genealogy"

Are You My Cousin?

[Excerpts]

The science of DNA is complex. A simpler, non-technical explanation follows.

The only way to determine anything about your ancestry based on your DNA is to find your genetic matches and then compare your paper (or digital) family tree with theirs. Because you and your matches share a common ancestor, their research could fill gaps in your own -- and vis versa.

If you have a DNA match, you and your genetic matches will be able to contact one another. This function is what really makes the process worthwhile, because it enables two previously unacquainted people to work together on tracing their shared family tree.

Smeltzer DNA Research

by: Bernard Kouchel

John F. Smeltzer of Fort Collins, CO has been researching the Smeltzer origins through DNA testing. This is his recent update:

"In our Smeltzer Y-DNA testing we have three distinct family lines that are all in the category of R1b1b2 which is of European origin and has been often called the "Celtic" line. It is a line that is found primarily in western Europe, including Germany and England. The Irish-Palatinate Smeltzer line of Peter Smelzer has tested R1b1b2. And, the lines of Paulser Smelzer (Johannes Balthasar Schmeltzer) b. abt 1720 ... probably Neunkirchen, Saarland, Germany AND the line of Valentin Schmeltzer b. abt 1705 Sankt Alban, Germany have also tested R1b1b2. That means that they DO share a common ancestor back in history. However, the lines are different enough genetically to show that they separated from a common ancestor at least 1000 years ago and each took off on their own genetic and history making pathway.

"These R1b1b2 lines are distinct from the other primary set of "I" (Eye) lines of melser/Schmeltzer/Schmelzer/Smeltzer in Europe and North America. The "I" lines include my line and at least one other major line of Johannes Adam Schmeltzer b. abt 1755 in Pennsylvania. These lines are primarily northern European lines originating in northern France, northern Germany and the Netherlands. And then we have at least three other lines of Schmeltzer / Smeltzer / Schmelzer whose origins are not so clear. One is alleged to be related to the composer Johan Heinrich Schmelzer, a musical contemporary of Johan Sebastian Bach. His genetic line is described as "R1a" which is primarily an eastern Europe line coming from Austria, Hungary, Poland and the Ukraine.

"We also have a line of Schmeltzer that appears to have descended from a Asian line that may be attributable to the invasion of Genghis Khan into Europe in the era of about 900 AD. His is a somewhat mysterious "G" line with very close similarities with the "C" type of western Asia."....

Several Smeltzers are buried in Union Cemetery in Ramsey NJ, including John Jr., J. Stuart, Walter, Chester A. (former mayor of Ramsey and Bergen County Freeholder), and Dorothea Smeltzer Schleuning.
